

EARN WHILE YOU LEARN

Apprenticeships

ISHA's Home Team are looking to recruit up to two apprentices.

The focus of the apprenticeship is dependent on your skill set and preference but could include:

- A construction trade, such as plumbing, carpentry or electrical
- A business discipline, such as customer service or planner/scheduler

Each apprenticeship would require a minimum of GCSE English and Maths. We're looking for motivated individuals who enjoy working as a part of a busy team. You must enjoy working with customers and be able to explain why a career in repairs and maintenance would appeal to you.

ISHA Home Team is keen to encourage applications to our apprenticeship scheme from as many people as possible, including those who do not have a background in construction.
